

# NEW PACK AGRO CHEM

Your Ideal partner in chemistry

AN ISO 9001:2015,14001 and OSHAS 18001:2017 CERTIFIED COMPANY

**One Goal One Passion  
competent reliable worldwide**

**A Greenfield Multi-Purpose Plant for  
Manufacturing of Various Pesticides  
formulations, Intermediates and technical grades**

**NEW PACK AGRO CHEM IS ONE OF THE LEADING  
FULL-SCALE PESTICIDE TOLLERS IN INDIA**

NEW PACK AGRO CHEM (NPAC) an ISO 9001:2015, 14001 and OSHAS 18001:2017 IS ONE OF THE LEADING FULL-SCALE PESTICIDE TOLLERS IN INDIA also a leading agrochemical B2B exports and domestic marketers in India, a fastest growing company in this geography and worldwide with continuous and consistent strives for acquiring advanced know-how in past several decades have resulted its today's status in the competition. Through channel partners we have now reach across the continents.

NPAC is a private family company established itself as a specialist in the field of formulation and conditioning of phytosanitary products. We specialize in Product development and production, through various stages in the formulation technology including blending EC, SL and SC, granulation and Jet mill and ACM and packaging for crop protection products and other agricultural products for the third parties.

Our experience in synthesizing, formulating and packaging fine, specialty and agrochemicals as a production service provider and contract manufacturer for the chemical and related industries.

We believe in Quality

New Pack Agro chem offer high-quality services for the development, formulation and packaging of crop protection product and specialty chemicals.

Our quality assurance system strictly adheres with quality planning, and record keeping. with documentation of standard operation procedures, including reference material and instrumentation with our rich experience, we offer our clients customized solutions and a full range of toll manufacturing services. We specialize in Pilot laboratory research for industrialization, and our Innovative formulation technologies includes Fluid bed granulation, High-pressure extrusion, Granulation through continuous impregnation, Trace analysis (LC - MS / MS) for Largescale productions

AN ISO 9001:2015,14001 and  
OSHAS 18001:2017 CERTIFIED COMPANY

## Company Profile

New Pack Agro Chem is a private family company established itself as a specialist in the field of formulation and conditioning of phytosanitary products. We specialize in Product development and production, through various stages in the formulation technology including blending EC, SL and SC, granulation and Jet mill and ACM and packaging for crop protection products and other agricultural products for the third parties. Our experience in synthesizing, formulating and packaging fine, specialty and agrochemicals as a production service provider and contract manufacturer for the chemical and related industries.

We offer a comprehensive range of services along our customers' entire value-added chain. This is how our production services are expanded through diverse services both upstream and downstream of the manufacturing process - from support with regulatory processes and as well as in procurement management, through formulation development and up scaling, to customs handling and organizing storage and transport logistics.

As a contract manufacturer with the most up-to-date production facilities, highly qualified workers and the highest possible level of flexibility, we offer individual concepts for manufacturing, processing and packaging your goods.

With our range of offers we can create added value for you and provide you with the space you need to concentrate on your core competencies.

Whether you require individual services or the full-service package, we place top value on quality, transparency, reliability, conserving resources, and protecting and ensuring the safety of people and the environment for all our activities.

Our site have optimal infrastructure and logistics connections to NH 48, Mumbai sea and airports.

Our long-standing, successful business relationships with many key players in the chemical industry confirm that you can always rely on us.

As we are technical expertise with full range of innovative solutions for our customers and clients.

To meet the requirements of our clients and guarantee an impeccable service quality, we are proud to hold ISO 9001:2015, 14001 and OSHAS 18001:2017 certifications.

We are aware of our social responsibility which is why we regularly evaluate our CSR policy to root our values around sustainable development and respect for the environment.

AN ISO 9001:2015, 14001 and OSHAS 18001:2017 CERTIFIED COMPANY

## Our services

- Purchasing of raw materials and containers/packaging.
- Formulation of any active ingredient or mixture.
- fill & pack of plant protection products
- Packaging definition and design.
- Production, packaging and storage.
- Preparation of fully customized documentation and shipments.
- development of packaging and formulations.
- Laboratory Quality testing and services linked to the plant protection products.
- Label design and artwork related services linked to the packaging materials.
- Sale of small-pack pesticides on the Indian market also belongs to our activities.
- Import and supply pesticide technical active ingredients also formulation in bulk for domestic and for exports
- Pack to Pack and Business to Business support
- Registration support for exports

**Synthesis → Formulation → Packing → Value added services**

# Formulation, Our Business

NPAC offer high-quality services for the development, formulation and packaging of crop protection product and specialty chemicals.

Our quality assurance system strictly adheres with quality planning, and record keeping. with documentation of standard operation procedures, including reference material and instrumentation with our rich experience, we offer our clients customized solutions and a full range of toll manufacturing services. We specialize in Pilot laboratory research for industrialization, and our Innovative formulation technologies includes Fluid bed granulation, High-pressure extrusion, Granulation through continuous impregnation, Trace analysis (LC - MS / MS) for Largescale productions.

## NPAC Manufacturing capacity / day

EC/SL - 50 KL/Day, SC/CS, 10 KL/Day, WDG 4000 kg/Day, WP(ACM) 8000 kg/day, WP(JET Mill) 6000 kg/day

**NPAC were experts in formulations technology. We manufacture below formulations, our -know how when developing & packing your active ingredients.**

AE	Aerosol dispenser	MC	Mosquito coil
AL	Other liquids to applied undiluted	ME	Micro-emulsion
AP	All other products to be applied undiluted	MR	Matrix Release
BR	Briquette	OD	Oil dispersion
CB	Bait concentrate	OF	Oil miscible flowable concentrate (oil miscible suspension)
CP	Contact powder	OL	Oil miscible liquid
CS	Capsule suspension	OP	Oil dispersible powder
DC	Dispersible concentrate	PA	Paste
DP	Dustable powder	PR	Plant rodlet
DS	Powder for dry seed treatment	RB	Bait (ready for use)
DT	Tablets for direct application	SC	Suspension concentrate (= flowable concentrate)
EC	Emulsifiable concentrate	SD	Suspension concentrate for direct application
EG	Emulsifiable granule	SE	Suspo-emulsion
EO	Emulsion, water in oil	SG	Water soluble granule
EP	Emulsifiable powder	SL	Soluble concentrate
ES	Emulsion for seed treatment	SO	Spreading oil
EW	Emulsion, oil in water	SP	Water soluble powder
FS	Flowable concentrate for seed treatment	ST	Water soluble tablets
FU	Smoke generator	SU	Ultralow volume (ULV) suspension
GA	Gas	TB	Tablet
GD	Gel for direct application	TC	Technical material
GE	Gas generating product	TK	Technical concentrate
GL	Emulsifiable gel	UL	Ultra-low volume (ULV) liquid
GR	Granule	VP	Vapour releasing product
GS	Grease	WG	Water dispersible granule
GW	Water soluble gel	WP	Wettable powder
HN	Hot fogging concentrate	Ws	Water dispersible powder for slurry treatment
KK	Combi-pack solid/liquid*	WT	Water dispersible tablets
KL	Combi-pack liquid/liquid*	XX	Others
KN	Cold fogging concentrate	ZC	A mixed formulation of CS en SC
LB	Long-lasting storage bag	ZE	A mixed formulation of CS en SE
LN	Long-lasting insecticidal net	ZW	A mixed formulation of CS en EW
LS	Solution for seed treatment
